

Community Gardens London Seed Sources List

mostly local, many organic, and/or heirloom vegetable, flower and herb seeds; some fruit trees and shrubs; seed saving and exchange.

Some places on the list do not handle organically raised seeds exclusively, but seem to me to be trying sincerely to live more lightly on the earth. All are independent companies, or organizations.

Happy gardening!

Why's Woman www.savingtheworldinmysparetime.blogspot.com

Seeds of Diversity *Canada

is a Canadian volunteer organization that conserves the biodiversity and traditional knowledge of food crops and garden plants. It promotes saving, grow-out and exchange of (especially) traditional varieties of seed.
